SHEATH MAKING

COMMAND	ASK BIGHTROC ABOUT SHEATH
Bremerial's View	Bightroc says, "Here for your last lesson in Warrior Tricks? Great! Let's get started..."
COMMAND	WTRICK SHEATHM MEASURE
Bremerial's View	Bightroc says, "First thing you need to do is find out how many units of animal hide you need for your sheath by measuring the weapon you're making a sheath for." Bightroc picks up a bit of marked cord and demonstrates by measuring his arm. "The standard size for a sheath is thirty units."
COMMAND	WTRICK SHEATHM CUT <# units> <pattern>
Bremerial's View	Bightroc continues, "Once you have your hides, you cut as many units as you need for your weapon sheath. We have eleven basic patterns: sheath, scabbard, baldric, weapon sling, weapon harness, sword belt, dagger sheath, dagger scabbard, bow sling, axe frog, and quiver."
COMMAND	WTRICK SHEATHM CURE <MILD STRONG LACQUER>
Bremerial's View	"After you have enough hides cut for your pattern, you cure it, so it will last a good long time." Bightroc picks up a portable wooden rack and says, "After you stretch the pattern on one of these wooden racks, you coat the non-furry side with the curative. We carry three types of curative: mild, strong, and lacquer. The mild curative will merely preserve the hide indefinitely, while the strong curative will allow the hide to harden into leather. Lacquer provides a glossy coating on your sheath, but also obscures the type of hide you used. The mild curative costs fifty silvers per unit of hide, the strong curative costs one hundred silver per, and the lacquer costs five hundred silver per unit."
COMMAND	WTRICK SHEATHM CURE
Bremerial's View	Bightroc says, "When the pattern has dried, you sew it together with some leather threading. The thread costs five silver for every four units of animal hide. The sheath is then ready to wear, but you can add more details..."
COMMAND	WTRICK SHEATHM SEW
Bremerial's View	Bightroc says, "You can stamp your initials in the hide..."
COMMAND	WTRICK SHEATHM INITIAL
Bremerial's View	Bightroc says, "For sheathes and scabbards, you can add a strap to wear it as a belt, over your shoulder, or on your wrist, arm, back, thigh, or ankle. Sling and harness patterns are already equipped with a shoulder strap. Also, you can only attach wrist straps to sheathes or scabbards made with four units, arm or ankle straps with to ones made with eight units or less, and thigh straps to ones made with sixteen units or less." "Belts cost 50 silver. Shoulder, arm, back, and thigh straps cost 100 silver. Wrist and ankle straps cost 25 silver."

COMMAND	WTRICK SHEATHM STRAP <type>
Bremerial's View	<p>Bightroc says, "Next, you can add one or two of the five following treatments: dye, inlaid jewels, metal binding, metal trimming, or fringe.</p> <p>Bightroc says, "Before getting into these treatments, you should know that there are two possible locations for placing your decorations: noticeable first, and noticeable last. For example, you may choose to create a gold bound roltion hide scabbard fringed with wraith talons."</p> <p>"For that, the gold binding is in the noticeable first slot and the wraith talon fringe is in the noticeable last slot. Normally, the slots are filled in the order that you add decorations, starting with the noticeable first slot. However, you can specify that you would like to hold the first slot empty while using last slot first."</p>
COMMAND	WTRICK SHEATHM HOLD
Bremerial's View	Bightroc says, "You can use the dye pots here to mix colors for use in coloring your sheath. The dye costs fifty silvers per unit, and will take some time to dry. We keep a wide variety of colors in stock, and will place orders for others to suit your needs. Special color orders cost 5,000 silver, which is non-refundable should your order be denied. Dye can only be used in the noticeable first decoration slot."
COMMAND	WTRICK SHEATHM DYE <color>
Bremerial's View	Bightroc says, "You can use the dye pots here to mix colors for use in coloring your sheath. The dye costs fifty silvers per unit, and will take some time to dry. We keep a wide variety of colors in stock, and will place orders for others to suit your needs. Special color orders cost 5,000 silver, which is non-refundable should your order be denied. Dye can only be used in the noticeable first decoration slot."
COMMAND	WTRICK SHEATHM INLAY
Bremerial's View	Bightroc says, "You can also attach jewels that you supply. The fixtures cost 50 silver apiece, and you'll need at least six for them to be noticable. Not all gems are suitable for this, however, but most are. If you inlay less than six jewels, a description slot is not used up and you will be able to see them if you LOOK closely enough. You can also inlay two different types of gems, if you use the noticeable last decoration slot."
COMMAND	WTRICK SHEATHM BIND <metal>
Bremerial's View	Bightroc says, "Binding your sheath with metal adds to its strength, and adds a decorative touch. We have copper, which costs two silver per unit, brass for ten silver per, bronze for 25, iron for 30, steel for 40, silver for 50, gold for 100, mithril for 140, ora for 160, imflass and alum for 200, vultite for 300, and veniom for 1800. You can bind with two different kinds of metals, if you use the noticeable last slot."
COMMAND	WTRICK SHEATHM FRINGE
Bremerial's View	Bightroc says, "If you like a more fierce look to your sheath, you can add a fringe of claws, teeth, talons, feathers, horns, fangs, stingers, plumes, manes, mandibles, pincers, whiskers, incisors, canines, jawbones, or bones. You'll need six of these items for the fringe to be noticable and the six fixtures will cost 300 silver. You can fringe with two different kinds of items, if you use the noticeable last slot."
COMMAND	WTRICK SHEATHM TRIM
Bremerial's View	Bightroc says, "Trimming your sheath with metal adds to its durability, and adds a decorative touch. We offer the same selection of metals for trimming as we do for binding, at the same prices. You may also trim with two different kinds of metals, if you use the noticeable last slot."
